BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

SNOCAP, INC.,

Opposer,

v.

TODD MEAGHER,

Applicant.

Opposition No.: 91-177,827
Trademark: MYSTORE (stylized)
Serial No. 78/853,849

Opposition No.: 91-177,828
Trademark: MYSTORE.COM
Serial No. 78/853,866

Unopposed Motion to Consolidate Pending

OPPOSER'S OPPOSITION TO APPLICANT'S MOTION FOR SUMMARY JUDGMENT OR ALTERNATIVELY TO COMPEL DISCOVERY, AND OPPOSER'S CROSS MOTION FOR SUMMARY JUDGMENT

A. PREFATORY NOTE ON CONSOLIDATION:

Applicant filed a Motion to Consolidate the two captioned oppositions on July 23, 2007. The Motion to Consolidate is well-taken for the reasons set forth therein, and Opposer did not object to or oppose consolidation. While no Order has yet issued, the Motion to Consolidate should be granted as conceded and on the merits. Until consolidation is actually ordered however, this document carries a double caption and should apply to each opposition.

B. OPPOSITION TO APPLICANT'S ALTERNATIVE MOTION TO COMPEL DISCOVERY:

As a preliminary matter, Opposer herewith objects to Applicant's "Alternative" Motion to Compel Discovery on procedural grounds. In the event the Board disagrees however,

Opposer requests leave to file a substantive response and objection to Applicant's "Alternative" Motion to Compel Discovery after ruling on the Motions for Summary Judgment, if a response is still necessary and the issues are not moot.

A MOTION TO COMPEL DISCOVERY IS NOT GERMANE TO THE MOTION FOR SUMMARY JUDGMENT.

Pursuant to Section 528.03 of the Trademark Board Manual of Procedure:

> *"When a party files a timely motion for summary judgment, the Board will suspend proceedings in the case with respect to all matters not germane to the motion (if the motion was untimely filed, the Board, in its discretion, may issue an immediate action denying the motion for that reason). The filing of a summary judgment motion does not, in and of itself, automatically suspend proceedings in a case; rather, proceedings are suspended when the Board issues an order to that effect. However, on a case-by-case basis, the Board may find that the filing of a motion for summary judgment provides a party with good cause for not complying with an otherwise outstanding obligation, for example, responding to discovery requests."*

While no such order has yet issued from the Board, Opposer believes this may solely be due to the Board's workload, noting again that no order has yet been issued on the unopposed Motion to Consolidate either. In that regard, Opposer requests that the Board issue an Order consolidating the two oppositions, and its Order suspending all proceedings in the case with respect to all matters not germane to the motions for summary judgment. Applicant does not contend that the Motion to Compel is in any way germane to or necessary for Applicant's Motion for Summary Judgment, and in fact specifically requests only that the motion to compel be taken up "if the Board denies Applicant's Motion for Summary Judgment". Dealing with the factually intensive and potentially unnecessary issues of a motion to compel as an "alternative" to the motion for summary judgment is inappropriate and wasteful of the time of the parties and, more importantly, of the Board. For this reason, Opposer submits that Applicant's "Alternative" Motion to Compel Discovery should be denied without prejudice, so as to enable Applicant to raise the issues therein at a later time, once Applicant's Motion for Summary Judgment and the Opposer's Cross-Motion for Summary Judgment have been decided, should the issues relating to discovery not be moot as a result thereof.

C. MOTION FOR SUMMARY JUDGMENT PREMATURE UNTIL PENDING AND FULLY BRIEFED MOTION(S) TO STRIKE ARE DECIDED:

On August 15, 2007 Opposer SNOCAP filed (in each opposition, awaiting consolidation) Opposer's Motion to Strike Portions of Applicant's Answer and Affirmative Defenses. Applicant filed its response in opposition to said motions on August 29, 2007, and Opposer filed a brief reply on September 18, 2007. The Motion(s) to Strike have been fully briefed and awaiting decision since September 18, 2007, and the ruling on said motion(s) could have a significant effect on the issues before the Board in these oppositions. For that reason, Opposer submits that Applicant's Motion for Summary Judgment is premature and should be dismissed without prejudice, with leave to refile same once the Motion(s) to Strike have been decided. Similarly, if Applicant's Motion for Summary Judgment is so dismissed, then Opposer's Cross-Motion for Summary Judgment should similarly be dismissed without prejudice and with leave to refile on the same terms.

D. OPPOSITION TO APPLICANT'S MOTION FOR SUMMARY JUDGMENT:

Opposer herewith opposes Applicant's Motion for Summary Judgment. Because the issues raised in and the analysis of Opposer's opposition to Applicant's Motion for Summary Judgment are inextricably intertwined with the issues and analysis set forth in Opposer's Cross-Motion for Summary Judgment brought herein and to avoid needless duplication and repetition of the arguments, Opposer respectfully requests that the Board consider Opposer's Cross-Motion for Summary Judgment as part and parcel of Opposer's Opposition to Applicant's Motion for Summary Judgment.

Opposer does not disagree with the statement of the law and the cases propounded by Applicant, and indeed, adopts same as part of its legal analysis. However, Opposer strongly disagrees with and disputes the conclusions reached by Applicant. Opposer's Motion for Summary Judgment rests, essentially, on the following arguments, each of which is addressed

and disputed in the extensive discussion below which shows, in fact, exactly the opposite of what Applicant asserts.

Applicant bases its entire motion on, and argues - demonstrably incorrectly - that:

1. Applicant's alleged mark, as a whole, does not have a descriptive meaning in relation to Applicant's services;

2. Applicant's alleged mark, as whole, does not describe any ingredient, quality, characteristic, function, feature, purpose or use of the specified goods or services;

3. There is no competitive need by Opposer or any other party to use Applicant's alleged mark descriptively;

4. Applicant's alleged mark is not contained in any dictionary or industry reference materials;

5. Applicant's alleged mark is not used by any party other than Opposer and Opposer's affiliates;

6. Proof of distinctiveness of Applicant's alleged mark is established by the existence of eight issued registrations for variants containing "my store", and three cancelled (2 under Sec 8, 1 under Sec 18) registrations for "MY STORE".

Against these largely unsupported self-serving assertions, Opposer is submitting, as part of its Cross-Motion for Summary Judgment (to be considered as well as part of its opposition to Applicant's Motion for Summary Judgment), a declaration and hundreds of examples of descriptive and generic use of "my store", "mystore" and variants in URL's, web site pages, online commerce sites or stores and online sites which all provide online classified advertising, online promotion of the goods or services of others over the Internet, and/or online computer databases and online searchable databases featuring classified listings or want ads. The evidence submitted herein by Opposer is absolutely overwhelming that the descriptive or generic phrases "my store" or "mystore" (along with variants such as "my xyz store") are used extensively throughout the relevant industry to advertise, promote, identify and describe, and/or as the

generic name of various types of online commerce sites, including all kinds of online stores from which various products and services are sold. The descriptive or generic phrases "my store" or "mystore" are also used extensively to identify and describe, and as the generic name of software, templates and tools which instruct and assist others in creating "my stores" for exactly these purposes.

Opposer notes that Applicant obviously agrees that variants in the form "MY XYZ STORE" are relevant to examples of "MY STORE" and "MYSTORE", since as shown below, Applicant attempted to place into evidence and argue (at Pages 4 - 5 of its motion) various registrations of marks in this form as support for its own position.

The few registrations cited by Applicant in support of its Motion for Summary Judgment - even had they been properly submitted into evidence and not objected to by Opposer - do not establish the absence of any genuine issues of material fact. These are older registrations, with no indication of the basis of registration, no file wrapper histories submitted, and with disclaimers of key terms in many cases, and in several cases the services are not, in fact, a "store" at all. Reg #2,413,861 (MY LOCAL HARDWARE STORE!) is a Class 200 Collective Mark, indicating membership in a trade group. Even then, the phrase "local hardware store" is disclaimed. Reg #2,598,869 (MYBENEFITSTORE) is for consulting services - where "store" is purely suggestive of the concept of a "store". In Reg #2,663,703 (MY CORPORATE STORE) the phrase "corporate store" is disclaimer. In Reg #2,555,965 (MY BABY STORE) the phrase "baby store" is disclaimer. Even though Applicant cites Rule 2.122(d)(1) on the requirements for admissibility (which are not followed in the above), there are no records at all with respect to the argued cancelled registrations for MY STORE, #1,253,266, #1,641,386 and #2,561,645 - just Applicant's naked claims about their former existence and history, all without any support. These latter 3 claimed registrations are clearly not properly in evidence by Applicant's own arguments (and would have no meaning on the issues before the Board even if they were).

Moreover, it is axiomatic that neither trademark examining attorneys or the Board are bound by isolated examining operation decisions allowing (or denying) registrations in prior cases - even of similar or identical marks. There are simply too many variables that affect the right to register at any point in time, and each case must be heard and decided on its own merits. TMEP §1207.01(d)(vi) - Prior Decisions of Examining Attorneys - states:

> *Each case must be decided on its own merits. Previous decisions by examining attorneys in approving other marks are without evidentiary value and are not binding on the agency or the Board. In re Sunmarks Inc., 32 USPQ2d 1470 (TTAB 1994); In re National Novice Hockey League, Inc., 222 USPQ 638, 641 (TTAB 1984).*

For the same reasons the existence of these few prior registrations argued by Applicant, even if they were properly in evidence, do not support Applicant's Motion for Summary Judgment, and do not establish that there is no genuine issue of material fact as asserted by Applicant.

Finally, Applicant argues, at Pages 5-6, that any doubt as between a descriptive mark and a suggestive mark "must be resolved in applicant's favor". While that principal may be applicable in appropriate examination cases, it has no bearing or applicability in a motion for summary judgment where the moving party, Applicant here, bears the very significant burden of establishing that there are no genuine issues of material fact.

For these reasons, and for the reasons set forth in great detail below (in Opposer's Cross-Motion for Summary Judgment), Applicant's Motion for Summary Judgment must be denied.

E. OPPOSER'S CROSS-MOTION FOR SUMMARY JUDGMENT (INCORPORATING OPPOSER'S OPPOSITION TO APPLICANT'S MOTION FOR SUMMARY JUDGMENT):

Pursuant to Rule 56 of the Federal Rules of Civil Procedure and Section 528 of the Trademark Board Manual of Procedure, Snocap, Inc., ("Opposer") hereby moves the Trademark Trial and Appeal Board (the "Board") for summary judgment against Todd Meagher ("Applicant") in each opposition. The basis for this motion is that the undisputed material facts

set forth herein show that Applicant's mark is generic or, at a minimum, highly descriptive. There is no evidence of secondary meaning, and thus Applicant does not own and cannot obtain rights sufficient to justify a registration. Because a registration would bar Opposer from using the same or a similar term for its own ordinary and common descriptive or generic meaning, Opposer would be damaged by a registration.

PROCEDURAL HISTORY:

On April 4, 2006 Applicant filed two intent-to-use (ITU) applications to register the alleged marks MYSTORE (stylized) and MYSTORE.COM, claiming a bona fide intent to use the alleged marks for a broad list of services which, after objections by the Examining Attorney, were eventually narrowed to:

> Advertising and information distribution services, namely, providing classified advertising space via a global computer network; promoting the goods and services of others over the Internet; providing on-line computer databases and on-line searchable databases featuring classified listings and want ads, in Int. Class 35.

No Amendment to Allege Use has yet been filed.

The basis for the essentially identical Notices of Opposition (with an unopposed Motion to Consolidate filed July 23, 2007 and still pending) is that the alleged marks sought to be registered are descriptive or generic, and that registration thereof will harm Opposer and others by curtailing the right to use the terms in a descriptive or generic sense.

On August 15, 2007 Opposer SNOCAP filed (in each opposition, awaiting consolidation) Opposer's Motion to Strike Portions of Applicant's Answer and Affirmative Defenses. Applicant filed its response in opposition to said motions on August 29, 2007, and Opposer filed a brief reply on September 18, 2007. The Motion(s) to Strike have been fully briefed and awaiting decision since September 18, 2007.

OPPOSER'S EVIDENCE THAT THE MARKS ARE DESCRIPTIVE OR GENERIC:

In support of its Cross-Motion for Summary Judgment, Opposer submits, by way of the attached authenticating declaration of Nicole Pannoni, nearly a thousand pages of evidence detailing many hundreds of websites and representative screenshots of individual web pages, in pdf format, of many hundreds of live, active websites that show 3rd party uses of the terms "my store", "my store" and variants such as "my xyz store", inter alia. Again, Opposer notes that even Applicant obviously agrees that variants in the form "MY XYZ STORE" are relevant to examples of "MY STORE" and "MYSTORE", since as discussed earlier, Applicant submitted (albeit procedurally defectively) at Pgs 4 - 5 of its motion various prior registrations of marks in this form as support for its own position.

Opposer's evidence exhibits are divided into five categories, identified as Categories A through E, with the exhibits in each category labeled Exhibit A001 etc, B001 etc, C001 etc., D001 etc. and E001 etc. For ease in organizing and understanding this extensive collection of 3rd party descriptive and generic use, Opposer has prepared Schedule I, attached to and made a part of this motion (and included as an attachment to the Pannoni declaration as well), which provides a summary listing, by category of the various websites and web pages submitted via the Pannoni declaration. The categories as described by Pannoni and the exhibits in each category are:

Category A -Exhibits A001 to A257 - URL:

Category A (URLs) and Exhibits A001 through Exhibit A257 are 257 web pages that include "my store", "mystore" or variants in the URL. Some of the web pages display "my store", "mystore" or variants in the top level of the URL while others display "my store", "mystore" or variants in the second level, referencing a page on that website. In some cases - the eBay stores, for example - the URLs include both "my store" and "my XYZ store," where the second level

refers to the name of the store. The nature of that use is clear from the URLs shown on Schedule I attached hereto, and the individual website pages can be seen at each exhibit, all of which are attached to and authenticated by the Pannoni declaration. A small representative sampling of the 257 Category A exhibits includes such uses as:

http://mystore.24hourfitness.com/
http://stores.ebay.com/LOOK-AT-MY-STORE
http://stores.ebay.com/Buy-It-Now-From-My-Store-Collection
http://stores.ebay.com/Click-HERE-To-Enter-My-Store
http://stores.ebay.com/Come-and-shop-in-my-store
http://stores.ebay.com/Come-In2-My-Store
http://stores.ebay.com/COME-VISIT-MY-STORE
http://stores.ebay.com/GIFTS-TO-GO-MY-STORE
http://stores.ebay.com/Just-My-Store
http://pages.ebay.com/storefronts/managemystore.html
http://stores.ebay.com/my-store-4bargains
http://stores.ebay.com/MY-STORE-AND-MORE
http://stores.ebay.com/My-Store-of-Things
http://stores.ebay.com/My-Store-Spices
http://stores.ebay.com/My-Store-Stuff
http://stores.ebay.com/please-visit-my-store
http://stores.ebay.com/remember-my-store
http://stores.ebay.com/Found-It-At-My-Store
http://www.mystoremaker.com/features.php
http://www.mystorecredit.com/
http://www.mystore-solutions.com/
http://www.mystoresupplier.com/
http://www.searchmystore.com/inventory/
http://www.startmystore.com/
http://www.stockmystore.com/

Category B - Exhibits B001 to B010 - eBay List:

Category B (eBay List) contains Exhibits B001 through B010 totaling 29 pages and listing some 236 representative personal online stores hosted by eBay that reference and use the expression "mystore,", "my store" or variants, including, for example both "my store" and "my XYZ store." In this category, each of the 236 items on the list represents an individual account or a "my store" created by a user and hosted on eBay. Each one is in the form of "My Store" or "My XYZ Store", and the general description of what the store sells is in the eBay list. The concept

and name "My Store" is how eBay generically sets up and establishes the system of seller-specific, individual online commerce stores. Copies of each website are attached as exhibits to and authenticated by the Pannoni declaration.

Category C - Exhibits C001 to C004 - Google List:

Category C (Google List) contains 4 exhibits totaling 35 pages, representing the Google search page listings of search results showing 348 "hits" returned using the Google search index, searching for "my" within two words of "store." These 348 search results will include some pages also listed in the other categories of exhibits. The Google search listing gives a short excerpt of how the descriptive or generic term is used on the site, and copies of each website are attached as exhibits to and authenticated by the Pannoni declaration.

Category D - Exhibits D001 to D021 - Tools and Utilities to Create a "My Store":

Category D (Tools and Utilities to Create a "My Store") contains Exhibits D0001 through D021 which are websites which advertise, market, sell and promote various software tools for creating individual, personalized online commerce websites called "mystore" or "my store," templates for creating a "mystore" or "my store" site, and services offering hosting and design of "my store." In each case it is possible to create a variant use, such as "my xyz store". The exhibits in Category D are particularly instructive of the common, descriptive or generic use of these phrases, and excerpts of the descriptive/generic language are copied into the Schedule I, Category D exhibits for ease of reference. Again, the original exhibits are all attached to and authenticated by the Pannoni declaration. As just a few representative examples however, note the following, copies of which exhibits are also attached to Opposer's motion herein (emphasis added):

Exhibit D005 http://www.dextel.net/ecommerce-faqs.html
"Who will be hosting my store?"; "How long does it take to setup my store?"; "Will I need to contact you to make changes to my store?"; "How will internet shoppers find my store?"; "Do I need to know HTML to manage my store?"

Exhibit D012 http://www.listmystore.com/links/index.shtml
"ListMyStore"; hyperlink to "ReviewMyStore"; hyperlink to "OptimizeMyStore"; hyperlink to "HostMyStore"; hyperlink to "MyStoreMaps"

Exhibit D013 http://www.mystoremaker.com/features.php
"MyStoreMaker Details"; "MyStoreMaker - Key Features"; "Sell your products on all MyStoreMaker sites"; hyperlink to "What is MyStoreMaker?"; hyperlink to "MyStoreMaker packages"

Exhibit D019 http://www.mystorecredit.com/
"My Store Credit"; "My Store Credit's two interrelated ..."; hyperlink to "Click Here to sign into your MyStoreRewards account."; "Click Here to sign into your MyStoreMaps account."

Category E - Exhibits E001 to E271 - Use in Text/Page Name:

Category E (Use in Text/Page Name), Exhibits 001 through E271 include 271 representative examples of web sites where there is clearly descriptive use of "my store", "mystore" or a variant appearing in the text of a web page and or in the name of the web page.

Schedule I of the Pannoni declaration is also attached to this brief, for the Board's convenience. Schedule I is a summary listing of all of the exhibits grouped according to the categories, showing the number of pages of each exhibit and where the use is not solely in the URL, it also includes selected excerpts from the web pages showing the specific generic and/or descriptive use of "my store", "mystore" and variants such as "my xyz store", where appropriate.

Opposer has included these hundreds of various Internet websites and web pages not as evidence of the truth of the actual content of the pages, but rather to show the pervasive, general practice in this online commerce industry leading to an overwhelming number of instances of 3rd party descriptive and/or generic use of the terms "mystore", "mystore.com" and variants such as "my xyz store" (which even Applicant concedes are relevant). TMEP Section 528.05(e) provides that:

> *"... materials which are not self-authenticating in nature, may nonetheless be admissible as evidence in connection with a summary judgment motion, if competent and relevant, provided they are properly authenticated by an affidavit or declaration pursuant to Fed.*

R. Civ. P. 56(e). Such materials, including printouts of articles or information obtained from the Internet may, on summary judgment, be introduced by the affidavit or declaration of a person who can clearly and properly authenticate and identify the materials, including identifying the nature, source and date of the materials."

Pursuant thereto, Opposer submits Exhibits A through E, as summarized in Schedule I attached to and made a part hereof, along with the authenticating Declaration of Nicole A. Pannoni.

ARGUMENT:

I. SUMMARY JUDGMENT IS APPROPRIATE IF THERE IS NO GENUINE ISSUE AS TO ANY MATERIAL FACT

Rule 56 of the Federal Rules of Civil Procedure provides that summary judgment is appropriate where there is no genuine issue as to any material fact and the moving party is entitled to judgment in its favor as a matter of law.[1] Summary judgment is appropriate in actions before the Trademark Trial and Appeal Board.[2] In deciding a motion for summary judgment, the Board must determine whether "the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to judgment as a matter of law."[3] The facts are to be reviewed with all inferences drawn in favor of the party opposing the motion.[4]

---

[1]A dispute of fact is "material" if it "affects the outcome of the litigation" and is "genuine" if there is "sufficient evidence supporting the claimed factual dispute . . . to require a judge or jury to resolve the parties' differing versions of the truth at trial." *Kappa Sigma Fraternity v. Kappa Sigma Gamma Fraternity*, 654 F.Supp. 1095, 1098 (D.N.H. 1987), quoting *Finn v. Consolidated Rail Corp.*, 782 F.2d 13, 15 (1st Cir. 1986) and *Hahn v. Sargeant*, 523 F.2d 461, 464 (1st Cir. 1975), *cert. denied*, 425 U.S. 904, 96 S.Ct. 1495,47 L.Ed.2d 754 (1976).

[2]See, *Imperial Tobacco v. Phillip Morris, Inc.*, 899 F.2d 1575, 1581, 14 U.S.P.Q. 2d 1390, 1394 (Fed. Cir. 1990); *Sweats Fashions, Inc. v. Pannil Knitting Company, Inc.*, 833 F.2d 1560, 1562, 4 U.S.P.Q. 2d 1793, 1795 (Fed. Cir. 1987).

[3] Fed.R.Civ.P. 56(c); *Celotex Corp. v. Catrett*, 477 U.S. 317, 322-23, 106 S.Ct. 2548, 2552-53, 91 L.Ed.2d 265 (1986); *Little v. Liquid Air Corp.*, 37 F.3d 1069, 1075 (5th Cir. 1994) (en banc); *Bozé v. Branstetter*, 912 F.2d 801, 804 (5th Cir. 1990).

[4] *Bozé,* 912 F.2d at 804 (citing *Reid v. State Farm Mutual Auto Ins. Co.*, 784 F.2d 577, 568 (5th Cir. 1986).

However, factual controversies are resolved in favor of the non-movant "only when there is an actual controversy, that is, when both parties have submitted evidence of contradictory facts."[5]

The party moving for summary judgment has the initial burden of demonstrating the absence of a material fact issue with respect to those issues on which the movant bears the burden of proof at trial. For any matter on which the non-movant carries the burden of proof at trial, however, the movant may, by merely pointing to the absence of evidence supporting the essential elements of the non-movant's case, shift to the non-movant the burden of demonstrating by competent summary judgment proof that there is an issue of material fact so as to warrant a trial.[6]

The non-movant's burden may not be satisfied by conclusory allegations, unsubstantiated assertions, metaphysical doubt as to the facts, or a scintilla of evidence.[7] In the absence of any proof, the court should not assume that the non-movant could or would prove the necessary facts.[8] Rule 56 mandates the entry of summary judgment, after adequate time for discovery and upon motion, against a party who fails to make a sufficient showing of the existence of an element essential to the party's case, and on which that party will bear the burden at trial.[9]

Section 2 of the Lanham Act provides in pertinent part:

> No trademark by which the goods of the applicant may be distinguished from the goods of others shall be refused registration on the principal register on account of its nature unless it—

[9] *Little*, 37 F.3d at 1075 (citing *Celotex*, 477 U.S. at 322, 106 S. Ct. at 2552).

> (e) Consists of a mark which, (1) when used on or in connection with the goods of the applicant is merely descriptive or deceptively misdescriptive of them, ...

The evidence of pervasive generic and/or highly descriptive use throughout the industry establishes that there is no genuine issue of material fact as to whether Applicant's mark is generic (that is, not capable of distinguishing Applicant's services) or, at a minimum, merely descriptive of Applicant's services - it clearly is. For that reason, these Oppositions should be sustained.

II. A MARK IS MERELY DESCRIPTIVE WHERE, LIKE "MYSTORE" and "MYSTORE.COM", IT MERELY DESCRIBES AN INGREDIENT, QUALITY, CHARACTERISTIC, FUNCTION, FEATURE, PURPOSE OR USE OF THE RELEVANT GOODS

A mark is deemed to be merely descriptive under Section 2(e)(1) of the Trademark Act if it describes an ingredient, quality, characteristic, function, feature, purpose, or use of the relevant goods. Trademark Act 2(e)(1); *TMEP* §1209.01(b). It is not necessary that a term describe all of the purposes, functions, characteristics or features of a given product in order for it to be considered merely descriptive; it is sufficient that it describes a significant attribute, function or property of the goods. *TMEP* §1209.01(b).

The determination of whether or not a mark is merely descriptive must be made in relation to the goods or services for which registration is sought, not in the abstract. This requires consideration of (1) the context in which the mark is used or intended to be used in connection with those goods/services, and (2) the possible significance that the mark would have to the average purchaser of the goods or services in the marketplace. *TMEP* § 1209.01(b).

Here Applicant's marks MYSTORE and MYSTORE.COM immediately convey an idea of a significant function or purpose of use of Applicant's services - to advertise, promote, market various goods and services over the Internet. Both applications cover the following services among other: "providing ... advertising space via a global computer network" such as the

Internet, and "promoting the goods and services of others over the Internet". Thus when the marks are used in connection with the services for which registration is sought, they instantly express a major purpose, function, attribute to the average consumer.

Furthermore, if a mark is descriptive of any of the goods or services for which registration is sought, it is proper to sustain the opposition with respect to the entire class. See In re Analog Devices Inc., 6 USPQ2d 1808 (TTAB 1988), aff'd without pub. op., 871 F. 2d 1097, 10 USPQ2d 1879 (Fed. Cir. 1989). Since the marks MYSTORE and MYSTORE.COM are descriptive of the services "providing ... advertising space via a global computer network" and "promoting the goods and services of others over the Internet", the opposition should be sustained with respect to the entire Class 35 of both applications.

Applicant has stated in its Motion for Summary Judgment that:

"There is no competitive need by Opposer or by any other party to use the compound term MYSTORE descriptively. The term MYSTORE was coined by applicant. The term MYSTORE is not contained in any dictionary or industry reference materials. The term MYSTORE is *not used by any party* other than Opposer and Opposer's affiliates, such use being an infringement of Applicant's trademark rights." (Emphasis added).

For Applicant to make such an obviously erroneous, self-serving statement in the face Opposer's evidence described here - all of which was readily available to and undoubtedly known by Applicant - which overwhelmingly establishes extensive uses of the terms "mystore", "mystore.com" and variants such as "my xyz store" throughout the online e-commerce industry, literally blanketing the Internet, is simply disingenuous.

A "merely descriptive" mark may not be registered on the Principal Register absent a showing of acquired distinctiveness. *TMEP* § 1209. As shown by the numerous web pages attached as Exhibits A through E to this Motion the terms "mystore", "mystore.com" and

variants such as "my xyz store" are widely and extensively used by 3rd parties for their ordinary dictionary meanings. These terms are clearly highly descriptive or generic. Applicant has not alleged that its alleged marks have acquired distinctiveness, relying instead on the argument that the alleged marks are inherently distinctive. Without any evidence of acquired distinctiveness of its alleged marks, and in view of the overwhelming evidence of extensive, pervasive generic and/or descriptive use by many hundreds of third parties, registration of the alleged marks in the two opposed applications should be refused.

Applicant has also suggested that even if the terms "mystore" or "my store" are descriptive or generic of online retail stores, that does not mean they are descriptive or generic for the services of the applications, namely

> "*Advertising and information distribution services, namely, providing classified advertising space via a global computer network; promoting the goods and services of others over the Internet; providing on-line computer databases and on-line searchable databases featuring classified listings and want ads*"

However, it is common knowledge that this type of online advertising and promotion of the goods and services of others, etc. is at the very core of the business model of online commerce sites. If for any reason that is not obvious, then the hundreds of examples of online e-commerce sites operated under the name "mystore", "my store" and variants amply demonstrates this fact.

In addition, Applicant's attempt to distinguish mystore.com from mystore does not create rights. The Board (and the Examining Operation) have repeatedly held that adding ".com" to an otherwise descriptive or generic term does not create valid trademark rights. As explained in TMEP §1209.03(m) - Domain Names:

> *Because TLDs generally serve no source-indicating function, their addition to an otherwise unregistrable mark typically cannot render it registrable. In re Reed Elsevier Properties Inc., 482 F.3d 1376, 82 USPQ2d 1378 (Fed. Cir. 2007) (LAWYERS.COM generic for "providing an online interactive database featuring information exchange in the fields of law, legal news and legal services"); In re Oppedahl & Larson LLP, 373 F.3d 1171, 71 USPQ2d 1370 (Fed. Cir. 2004) (PATENTS.COM merely descriptive of computer software for managing a database of records and for tracking the status of the records by means of the Internet); In re Eddie Z's Blinds and Drapery, Inc., 74 USPQ2d*

1037 (TTAB 2005) (BLINDSANDDRAPERY.COM generic for retail store services featuring blinds, draperies and other wall coverings, sold via the Internet); In re Microsoft Corp., 68 USPQ2d 1195, 1203 (TTAB 2003) ("The combination of the specific term and TLD at issue, i.e., OFFICE and .NET, does not create any double entendre, incongruity, or any other basis upon which we can find the composite any more registrable than its separate elements. The combination immediately informs prospective purchasers that the software includes 'office suite' type software and is from an Internet business, i.e., a '.net' type business."); In re CyberFinancial.Net, Inc., 65 USPQ2d 1789, 1792 (TTAB 2002) ("Applicant seeks to register the generic term 'bonds,' which has no source-identifying significance in connection with applicant's services, in combination with the top level domain indicator ".com," which also has no source-identifying significance. And combining the two terms does not create a term capable of identifying and distinguishing applicant's services."); In re Martin Container, Inc., 65 USPQ2d 1058, 1061 (TTAB 2002) ("[N]either the generic term nor the domain indicator has the capability of functioning as an indication of source, and combining the two does not result in a compound term that has somehow acquired this capability.").

If "mystore" and "my store" are descriptive or generic, the mystore.com is also descriptive or generic, and should not be registered.

III. A MARK, SUCH AS "MYSTORE" and "MYSTORE.COM", IS GENERIC IF IT REFERS TO THE CLASS OR CATEGORY OF GOODS OR SERVICES

Generic terms are terms that the relevant purchasing public understands primarily as the common or class name for the goods or services. *TMEP* § 1209.01(c). There is a two-part test used to determine whether a designation is generic: (1) What is the class of goods or services at issue? and (2) Does the relevant public understand the designation primarily to refer to that class of goods or services? *TMEP* § 1209.01(c)(I).

Applicant filed the applications for MYSTORE and MYSTORE.COM in connection with "providing classified advertising space via a global computer network" and "promoting the goods and services of others over the Internet." In this context, MYSTORE and MYSTORE.COM describe exactly the services provided by Applicant, namely, facilitating "my store."

According to the *American Heritage Dictionary*, a store is "a place where merchandise is offered for sale." In the online e-commerce context, the store is not a physical location, but a

virtual store which exists on the Internet, and provides the same functional result - a place where goods and services are advertised, promoted, offered and sold. Individuals can go to a place, in this case the website and the various web pages where they can buy merchandise. The creation of a "my store" indicates ownership of the store by the individual merchants - their store - who provide the goods and/or services for sale - it does not identify Applicant. Thus, the average person would understand "my store" as somebody's store, and "my XYZ store" as a specific type of store by any number of owners. It is not an indicator of source indicating Applicant.

Furthermore, when a term is a compound word, the examining attorney may establish that a term is generic by producing evidence that each of the constituent words is generic, and that the separate words retain their generic significance when joined to form a compound that has "a meaning identical to the meaning common usage would ascribe to those words as a compound." *TMEP* § 1209.01(c)(i). This specific practice has been limited by the Court of Appeals for the Federal Circuit to "compound terms formed by the union of words" where the public understands the individual terms to be generic for a genus of goods or services, and the joining of the individual terms into one compound word lends "no additional meaning to the term." *In re Dial-A-Mattress Operating Corp.*, 240 F.3d 1341, 57 USPQ2d 1807, 1810 (Fed. Cir. 2001) (citing *In re American Fertility Society*, 188 F.3d 1341, 51 USPQ2d 1832, 1837 (Fed. Cir. 1999)). In the instant situation, the phrase "my store" is certainly made up of two generic terms, and in the compound term mystore (or "my store") is itself a generic term which lends "no additional meaning to the term" - in fact, the evidence shows that the two word compound term itself is used generically or highly descriptively throughout the industry. "Mystore" and "my store" are each generic and/or highly descriptive whether viewed as a joinder of two generic terms or a single compound term.

IV. A MERE MISSPELLING DOES NOT RENDER A TERM REGISTERABLE

To the extent Applicant contends that its mark is MYSTORE (one word) rather than MY STORE (two words), that has no bearing on the decision here. It has long been established that a mere misspelling of a generic or descriptive term does not render the term registerable. See, e.g., *American Druggists' Syndicate v. United States Industrial Alcohol Co.*, 2 F.2d 942 (D.C.Cir. 1924)(Al-Kol equivalent to alcohol); *Nupla Corporation v. IXL Manufacturing Company, Inc.*, 114 F.3d 191, 196, 42 U.S.P.Q.2d 1711 (CAFC 1997)(CUSH-N-GRIP held generic as a mere misspelling of generic term CUSHION GRIP); *J. R. Clark Co. v. Rich Ladder & Mfg. Co.*, 35 C.C.P.A. 1197, 168 F.2d 314, 78 U.S.P.Q. 23 (CCPA 1948)(Rid-Jid is merely misspelled "rigid" and thus descriptive); *Miller Brewing Co. v. G. Heileman Brewing Co.*, 561 F.2d 75, 79 (7th Cir. 1977) ("Using the phonetic equivalent of a common descriptive word, i. e., misspelling it, is of no avail."); *Leon Finker, Inc. v. Schlussel*, 469 F.Supp. 674, 678, 202 U.S.P.Q. 452 (S.D.N.Y. 1979) (Term "trilliant" is generic and so "neither it nor its phonetic or misspelled equivalents [such as trillion] are eligible for trademark protection."); *Henri's Food Products Co., Inc. v. Tasty Snacks, Inc.*, 642 F.Supp. 255, 260, 231 U.S.P.Q. 481 (E.D. Wis. 1986)("Because 'tasty' is a generic or common descriptive term, its phonetic spelling 'tas-tee' is also generic or commonly descriptive."). Thus, if MY STORE is descriptive or generic, MYSTORE is likewise descriptive or generic.

V. CONCLUSION

For the foregoing reasons, Applicant's Motion for Summary Judgment in each opposition should be denied; Opposer's Cross-Motion for Summary Judgment in each opposition should be granted, both oppositions should be sustained and registration of the marks MYSTORE and MYSTORE.COM should be denied.

- Why is Dextel different than other E-Commerce providers I've seen?
- Do I need a Merchant Account?
- What are the costs of setting up a new store?
- What type of security do you provide for online transactions?
- Do you have a reseller program?
- How do you convert more sales?
- Is there a limit to the number of products I can sell?
- May I have my own domain name?
- How am I notified of new orders?
- Can my orders be sent directly to my dropshippers?
- Does Dextel.net offer web design services, logo creation or web promotion servic
- Can customers log into the site to view the status of an order?

Why is Dextel different than other "Ecommerce Software" I've seen?

Most e-commerce providers use template based solutions or generic shopping cart softw allow you to add basic shopping features to a product list. While these may be sufficient t very basic e-commerce, these solutions lack flexibility and customization to your unique r

Our approach is different. We custom design each e-commerce store with its own uniqu feel, integrate the e-commerce store features you need based on your unique busines give you all the tools you need to easily manage and administer your website on a daily b make sure to provide with all of the tools necessary for professional online sales and suc

Top

Do I need a Merchant Account?

You do not need a merchant account to sell online. We can integrate your store with alte payment methods such as PayPal or e-checks or other similar payment options.

However, we do recommend you accept credit cards with your own merchant account. It idea to accept credit cards since 85% of all online purchases are made using credit cards fully compatible with all of the major and reputable merchant account providers. We will h obtain your own merchant account quickly, call us for more details.

Top

Your e-commerce store can be hosted at the hosting server of your choice provided it is c with our system or we can host your store through one of our reliable hosting partners.

Top

What are the costs of setting up a new store?

Please see our pricing section for details.

Top

What type of security do you provide for online transactions?

Your webstore will require an SSL security certificate. SSL certificates can be purchased various vendors and usually costs between $50 to $300 per year depending on the certifi choose. Based on your needs and products, we will recommend the best SSL certificate store.

Top

The setup, design and programming of your store depends on the features your store wil number of products you feature in your store and the complexity of your product line and process. Some stores can be completly setup and ready to sell online within 3 to 4 weeks may require up to 6 weeks.

Top

No. We provide you with easy to use tools to make changes to your prices, products, cat shipping methods, discounts, payment types, product descriptions and much, much more modifications can be made from your back office control panel from any computer conne Internet!

Top

Do you have a Reseller Program?

Yes. Please email us here for details.

Top

There are many ways for internet shoppers to find your store. Search engine submittal, p search engines, newsgroups and newsletters are all a part of the mix with successful e-b Once your website is setup and completed, we can help you promote your store effective generate traffic.

Top

No. HTML knowledge is not required to run store. You do not need to understand HTML programming languages to maintain your store either. All your store maintenance can be your back office control panel from any computer connected to the Internet!

Top

Why does Dextel.net convert more sales?

You will make more sales using the Dextel system. Your stores are designed to reduce th of clicks required by your customers to reach their desired product destinations. This is in because studies have shown if users can't find what they are looking for (in 12-15 secon less clicks)...they click to the next site in the search engine.

Top

Is there a limit to the number of products I can sell with the Dextel System?

There is no limit to the number of products you can sell. Some clients sell one product wh sell more than 50,000. Our ecommerce stores are completly scalable and will grow with y

Top

May I have my own domain name?

Yes, your store belongs to you and will feature your products exclusively. Your store WIL own domain www.yourdomain.com.

Your store will NOT be an extension or sub-domain of the Dextel.net.com domain.

Top

How am I notified of new orders?

For every order, your store sends an "order confirmation" e-mail both to you and your cus From there, you may log into your site and check your order details or print an invoice. O customer information are stored in your database so you can easily search for past order number or date range.

Top

Can my orders be sent directly to my dropshippers?

YES, we can customize full dropship integration. Products can be associated with a parti dropshipper. Each order can be sent to the proper dropshipper for fulfillment.

Top

Does Dextel.net offer web design services, logo creation or Web Promotions Services?

Yes, Dextel maintains a professional design staff to fulfill all web site design and logo cre click here for more info.

Top

Can customers log into the site to view the status of an order?

Yes, we can offer your customers the ability to log into your site to view the status of thei orders.

With this customer tracking feature your customers can track packages via major carriers USPS, UPS or FedEx directly from your site. Your customers may also log into your site order confirmation e-mail sent by your store.

This feature significantly reduces call volume and enhances customer support. These fea be added or not if you do not wish to use them.

Top

Do have any further questions, please feel free to contact us.

Drag and Drop Uploads
Simple interface to upload your product feeds.

Full Feature Descriptions

Static Pages

Every web page is STATIC. This means that every page has its own uniqu URL. is the ONLY store builder on the market that has this

feature. This is a HUGE bonus when it comes to search engine optimizati
Some search engines count product pages that use a URL parameter to
which product is being displayed as ONE page. So, if you have a million
products for sale on your site, it counts as ONE to the search engines. Si
of our product pages are static, the search engines see our sites as havir
MILLION web pages.

Affiliate Integration

We have integrated Linkshare ,Commission Junction and Share-A-Sa
datafeeds into MyStoreMaker. This means that just by adding a merchar
to your store, all of the related items in those feeds will be integrated into
online store. These products will not only earn you additional income but
expand your total site presence on the internet making it more likely to be
included in search engines.

Dropshipper Integration

We have integrated the 2 major internet dropshippers ,Doba and Megago
into MyStoreMaker. We handle all of the product feeds on a daily basis so
is nothing for you to do to start selling dropship products. Our advanced c
panel allows you to control items such as profit margins, handling charges
a real time basis.

Payment Integration

We currently have Paypal integrated into with many more
in the very near future

Data Exports

We have integrated the following exports into Froogle an
Yahoo Stores. In addition you can define any custom export you want wi
advanced export control panel. Also our Froogle export has been automa
once you define the parameters one time, your froogle export will be
automatically uploaded on a nightly basis.

Google Analytics

We give you an interface to input your Google Analytics code one time. A

that, all of your stores pages will be encoded with this feature.

Google Sitemaps
Every site build automatically generates an advanced Google Sitemap th
be placed in your home directory for Google to use for indexing your site(

Google Adsense
Our interface accepts your Google Adsense ID. From that point on, all Go
ads on your site will use YOUR adsense ID and generate revenue directl
your Google Adsense account.

Kanoodle
Our interface accepts your Kanoodle ID. From that point on, all Kanoodle
your site will use YOUR Kanoodle ID and generate revenue directly to yo
Kanoodle account.

Yahoo Publisher Network
Our interface accepts your YPN ID. From that point on, all YPN ads on yo
will use YOUR YPN ID and generate revenue directly to your YPN accou

User Fields
While all other store builders force you to change your data feed to confo
their predefined fields and format, we allow you to upload your existing pr
data with NO modification

META Generator
META tags are the key to the search engines finding your onlie store. Ou
advanced proprietary META generator automatically generates unique ta
each and every page on your site.

Drag and Drop Uploads
We have made uploading your products and images as easy as possible
simple Drag and Drop interface. Simply drag your complete product feed
format to our interface and another with the product images and that's it!!
other storebuilders make you create each and every product through a

cumbersome web interface that could take days to create and even longe
keep updated.

Unopposed Motion to Consolidate Pending

DECLARATION OF NICOLE A. PANNONI

I, Nicole A. Pannoni, declare as follows:

1. I am a third year law student at Santa Clara University, School of Law. I have been employed as a Legal Assistant at TechMark a Law Corporation for approximately two years, where I work directly for Martin R. Greenstein, Attorney for Opposer, SNOCAP, Inc.

2. I personally conducted research on the Internet at various times over the period from September 19, 2007 to November 14, 2007, searching for third party use, including descriptive and/or generic use, of "my store" or "mystore", and variants (e.g., "my xyz store").

3. Schedule I attached hereto and made a part of my declaration is a summary listing of the various websites and web pages I found. Each of the 257 URL's of Category A (the actual pages of which are in Exhibit A) are listed on Schedule I. For Category B, I have included in Schedule I a total of 29 pages of eBay search results which show 236 eBay "mystores", and a brief description or excerpt of each. For Category C, I have included in Schedule I a total of 35 pages of Google search which show 348 examples of "mystore", "my store" and variants obtained by

searching for "my" within two words of "store", and a brief description or excerpt of each. For Category D, I have listed the website information and excerpts and/or quotations from the actual text showing the use of "mystore", "my store" and variants. For Category E, I have listed each of the 271 URL's of the sites, and have added excerpts and/or quotations from the actual text of the web pages to more readily demonstrate the nature of this descriptive or generic use.

4. The exhibits attached hereto and made a part hereof, and summarized in Schedule I, are true and accurate screenshots which I captured in PDF format of pages from various website pages that I visited at the web addresses specified on the bottom left hand corner and on the date specified at the bottom right hand corner of each page. I personally visited each website in Categories A, B, D and E, and in each case the website was "live" and active. I personally visited selected, representative websites in Category C, and in each case that I visited, the website was "live" and active.

5. As indicated, the attached exhibits are divided into five categories, Categories A through E, representing the major types of uses that I found on the Internet. Representative examples of the use of "my store", "mystore" or variants in the exhibits contained in the following categories have been highlighted for easy reference. In some cases a website and page represented more than one type of use, and was included in each relevant category.

Category A -Exhibits A001 to A257:

URL - Category A contains web pages from 271 websites that include "my store", "mystore" or variants such as "my xyz store" in the URL. Some of the web pages display "my store", "mystore" or variants in the top level of the URL while others display "my store", "mystore"or variants in the second level, referencing a page on that website. In some cases - the eBay stores,

for example - include both “my store” and “my XYZ store,” where the second level refers to the name of the store.

Category B - Exhibits B001 to B010:

eBay List - Category B contains 10 exhibits with a total of 29 pages listing 236 online stores hosted by eBay that reference use the expression “mystore,”, “my store” or variants, including, for example both “my store” and “my XYZ store.” In this category, each of the 236 items on the list represents an individual account or a “my store” created by a user and hosted on eBay.

Category C - Exhibits C001 to C004:

Google List - Category C contains 4 exhibits with a total of 35 pages containing 348 “hits” or sites returned using the Google search index, searching for “my” within two words of “store.” These 348 search results will include some pages also listed in the other categories of exhibits.

Category D - Exhibits D001 to D021:

Tools and Utilities to Create a “My Store” - Category E contains advertisements, offers and descriptions of software for creating a website called “mystore” or “my store,” templates for creating a “mystore” or “my store” site, and services offering hosting and design of “my store.” In each case it is possible to create a variant use, such as “my xyz store”.

Category E - Exhibits E001 to E271:

Use in Text/Page Name - Category F includes 271 examples of web sites where there is clearly descriptive use of “my store”, “mystore” or a variant appearing in the text of a web page and or in the name of the web page.

6. Except as otherwise stated, I have personal knowledge of the facts set forth herein and if called as a witness I can and would competently testify to the foregoing. All documents and exhibits attached hereto are true and correct copies of the documents and web pages so identified.

7. I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge and belief. Executed this 19 day of November 2007 at San Jose, CA.

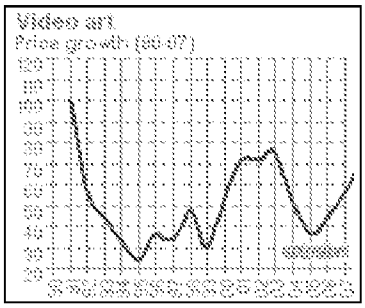
Art Market Trends 2006

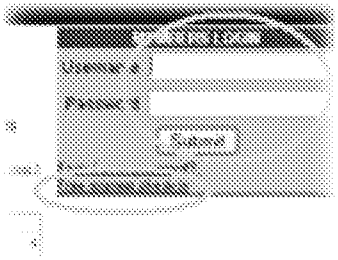
The mechanisms and secrets of the art auction market revealed by our press agency.

Video art – the moving image [20 Sep]
The artist, according to Wassily Kandinsky's time-honored expression, is 'the child of his time'. So what could be more normal than to appropriate contemporary technologies, in addition to the images and ideas of one's era. The boom of television during the 1960s awakened artists, in the United States as in Europe, to the possibilities of a 'video art'. For nearly



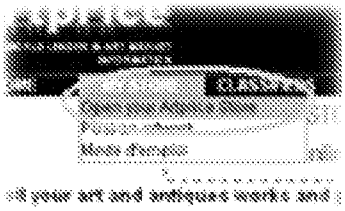
artprice is listed on Eurolist by Euronext Paris (Euroclear: 7478 - Bloomberg: PRC - Reuters: ARTF) - A company of *
Terms and conditions of use and sale - Privacy policy - copyright by artprice.com © Thierry Ehrmann 1987-2007 All rights rese

Artprice Store : an **online promotion space** giving the possibility of posting an **unlimited number of Fine Art and Antiques ads.**



To open or manage an Artprice Store,

> Enter your access codes if you are an Artprice member
> Or subscribe for free in the MEMBERS LOGIN area if you are a new visitor.



To create your Artprice Store,

> click on OPEN YOUR ARTPRICE STORE and follow the instructions to pursue your order.
Once your order has been confirmed, click on MANAGE MY ARTPRICE STORE.

Customise MY FRONT OFFICE

More than just offering an unlimited number of online ads, your Artprice Store is easy to use and manage. No software is required.

*You just have to fill in this form, the first 2 fields are **compulsory**. Your Artprice Store will only be activated after you give it a name and an occupation label :*

> Name of your Artprice Store : Replace the numbers by a name of your choice for your Artprice Store.
  - ✔ *Click on SEND in order to change your details.*
> My occupation: Choose amongst these profiles: Gallery, Auction House, Artist, Expert, Professionnal, or Individual. The label of your occupation will appear on your ads.
  - ✔ *Click on SEND in order to change your details.*

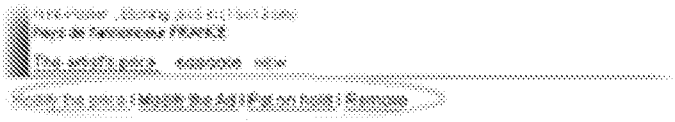
These details are optional, and can be completed at your convenience :

> My artist: Select within our databases the artists you want to add.
  - ✔ *If your artists are not in our databases yet, send an email to artist@artprice.com including their surnames, first names and dates (birth-death). You will be able to add their work in the next 48 hours.*
> My presentation: Describe your activity.
> Events : Announce your exhibits, shows or next events
> Display : Select the section to be in first display in your store front office.
> My contact details : Modify them whenever you want.
  - ✔ *The contact details which appear first are the one of your member account.*
> My images : Introduce your Artprice Store with appealing pictures. These will appear in the order you download them. Make sure to wait long enough for your images being successfully downloaded.

Manage my ART and ANTIQUES ADS

These 2 sections allow you to display, modify or hold your ads. You can do these actions whenever it suits you the best.

Your Artprice Store is visible to potential customers through the ads it presents. The more ads you post and the more diversified they are, the better you have chances of being noticed.



To post your ads, consult now the INSTRUCTIONS FOR USE ART & ANTIQUES ADS.

Our Artprice team will be happy to answer all your questions.

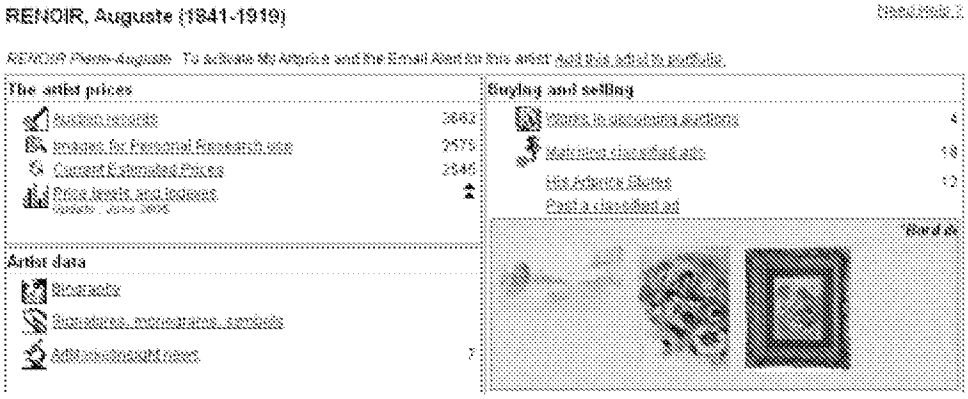
To contact us :

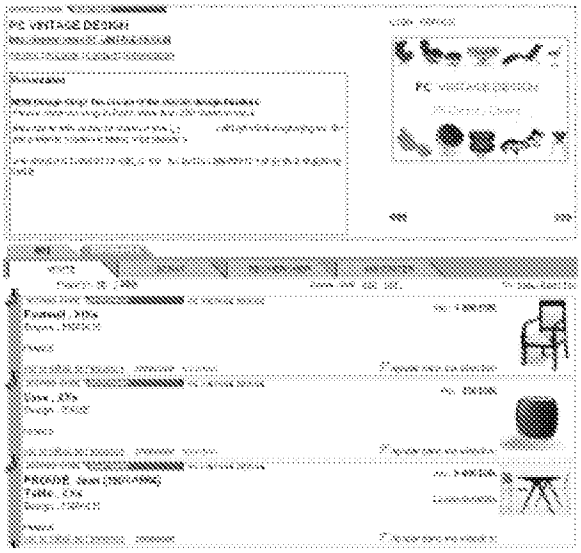
stores@artprice.com

+ 33 (0)4 78 42 17 06

Manage your Artprice Store :
Your art and antiques works and pieces are automatically listed in the Ads category and in the artists'/creators' data section, when applicable.

Unlimited during 1 year:
You can put on sale as many art and antiques works and pieces as you want during one year. There are no extra or hidden costs – Artprice does not get commissions on the sales.





Your dedicated promotion space: : all your ads are listed under one personalized and interactive space. Feel free to communicate everything that is important to your business: give details on your occupations, announce events, list the artists your work with... you can mention your contact details and add a link to your own website.

A targeted audience: : Your art and antiques works and pieces that are attributed to a particular artist/creator will be advertised to our 1,100,000 members on MyArtprice, their personal page, that provides them with updated information on their favorite artists/creators on a daily basis. We send them an email whenever a new ad is posted for their favorite artists/creators. This client file will soon be your core business. An email alert on Antiques' categories will follow soon.

Quick and easy: : When your pictures are ready, it only takes a minute for you to fill in the standardized forms, create your dedicated promotion space and post your ads. In the section you can modify or cancel the ads online, and add new ones whenever you need it.

Price list :

$ 129.00 / € 99.00 - ARTPRICE STORE - Duration: 12 months

$ 498.00 / € 478.00 - Professional Ultimate 2007 Annual Subscription - Duration: 12 months
Included in the subscription : *Option Artprice Images - annual* , *CD-ROM FINE ART 1987/2007* , *ARTPRICE STORE*

$ 318.00 / € 298.00 - PUREPLAY STORE annual subscription - Duration: 12 months
Included in the subscription : *Option Artprice Images - annual* , *ARTPRICE STORE*

The gap between online and offline marketing continues to narrow as internet usage be widespread and present in more parts of consumers' everyday lives.

> In fact, 91% of American adults say they use email (source: Pew Internet & American Life Project), while 35% of small business owners polled said losing Internet access would have a major impact on their business (Source: Wells Fargo/Gallup survey).

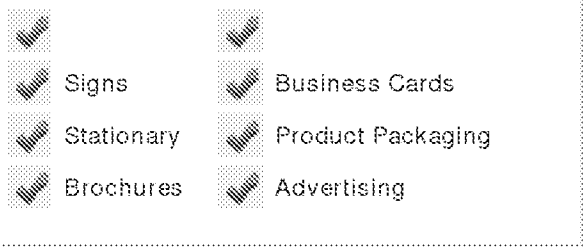
Email marketing is a crucial component of the marketing strategy of successful online b Whether your business is online, offline, or both, email should be part of your own st acquiring new customers and gaining loyalty from current ones.

If you have a physical location for your business or interact with customers directly, find collect email address and permission to send a newsletter and/or other incentives (the *necessary*).

Here are three ideas to help you to get started:

1. Advertise On Everything You Print

There are many compelling reasons to have a website for your business. But if you do you can still build a permission based email campaign using email for signing up.

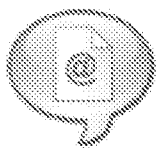


If you're directing people to your website, make sure your sign up form stands out on the page people see when visit it.

2. Ask For Email Addresses

When existing and prospective customers pay your store a visit or call in, have your staff verbally ask them if they'd like to sign up for your newsletter as they purchase, perhaps as part of the process of ringing them up for their purchase.

"Would you like to receive our email newsletter? We offer exclusive special offers and promotions, including a 10% coupon off your next purchase here."



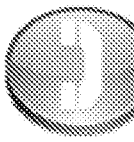
Offer incentives, like exclusive specials and new product / service announcem
protect their email addresses and want to know what they'll get out of providin

Remember that simply asking for an email address and asking for an email ad
specifically to sign up for a newsletter are two very different things. Permissio
necessary.

3. Promote Your Newsletter on the Phone

If people call in after hours or need to wait on hold for a period to speak with someo
great opportunities to:

- Provide them with an immediate opportunity to get information about your business
- Convert someone who may hang up and never call back into a continued prospect you can build a profitable relationship with



You can send them to your website, with a form they can sign themselves up with. C
provide their email address (have them spell it out) to your sales and support teams
voicemail message.

Once You've Collected Subscribers

To add the subcribers you've received permission from, compile them into a spreads
them right into our import feature.

- Why is Dextel different than other E-Commerce providers I've seen?
- Do I need a Merchant Account?
- What are the costs of setting up a new store?
- What type of security do you provide for online transactions?
- Do you have a reseller program?
- How do you convert more sales?
- Is there a limit to the number of products I can sell?
- May I have my own domain name?
- How am I notified of new orders?
- Can my orders be sent directly to my dropshippers?
- Does Dextel.net offer web design services, logo creation or web promotion servic
- Can customers log into the site to view the status of an order?

Why is Dextel different than other "Ecommerce Software" I've seen?

Most e-commerce providers use template based solutions or generic shopping cart softw allow you to add basic shopping features to a product list. While these may be sufficient t very basic e-commerce, these solutions lack flexibility and customization to your unique r

Our approach is different. We custom design each e-commerce store with its own uniqu feel, integrate the e-commerce store features you need based on your unique busines give you all the tools you need to easily manage and administer your website on a daily b make sure to provide with all of the tools necessary for professional online sales and suc

Top

Do I need a Merchant Account?

You do not need a merchant account to sell online. We can integrate your store with alte payment methods such as PayPal or e-checks or other similar payment options.

However, we do recommend you accept credit cards with your own merchant account. It idea to accept credit cards since 85% of all online purchases are made using credit cards fully compatible with all of the major and reputable merchant account providers. We will h obtain your own merchant account quickly, call us for more details.

Top

Your e-commerce store can be hosted at the hosting server of your choice provided it is c with our system or we can host your store through one of our reliable hosting partners.

Top

What are the costs of setting up a new store?

Please see our pricing section for details.

Top

What type of security do you provide for online transactions?

Your webstore will require an SSL security certificate. SSL certificates can be purchased various vendors and usually costs between $50 to $300 per year depending on the certifi choose. Based on your needs and products, we will recommend the best SSL certificate store.

Top

The setup, design and programming of your store depends on the features your store wil number of products you feature in your store and the complexity of your product line and process. Some stores can be completly setup and ready to sell online within 3 to 4 weeks may require up to 6 weeks.

Top

No. We provide you with easy to use tools to make changes to your prices, products, cat shipping methods, discounts, payment types, product descriptions and much, much more modifications can be made from your back office control panel from any computer conne Internet!

Top

Do you have a Reseller Program?

Yes. Please email us here for details.

Top

There are many ways for internet shoppers to find your store. Search engine submittal, p search engines, newsgroups and newsletters are all a part of the mix with successful e-b Once your website is setup and completed, we can help you promote your store effective generate traffic.

Top

No. HTML knowledge is not required to run store. You do not need to understand HTML programming languages to maintain your store either. All your store maintenance can be your back office control panel from any computer connected to the Internet!

Top

Why does Dextel.net convert more sales?

You will make more sales using the Dextel system. Your stores are designed to reduce th of clicks required by your customers to reach their desired product destinations. This is in because studies have shown if users can't find what they are looking for (in 12-15 secon less clicks)...they click to the next site in the search engine.

Top

Is there a limit to the number of products I can sell with the Dextel System?

There is no limit to the number of products you can sell. Some clients sell one product wh sell more than 50,000. Our ecommerce stores are completly scalable and will grow with y

Top

May I have my own domain name?

Yes, your store belongs to you and will feature your products exclusively. Your store WIL own domain www.yourdomain.com.

Your store will NOT be an extension or sub-domain of the Dextel.net.com domain.

Top

How am I notified of new orders?

For every order, your store sends an "order confirmation" e-mail both to you and your cus From there, you may log into your site and check your order details or print an invoice. O customer information are stored in your database so you can easily search for past order number or date range.

Top

Can my orders be sent directly to my dropshippers?

YES, we can customize full dropship integration. Products can be associated with a parti dropshipper. Each order can be sent to the proper dropshipper for fulfillment.

Top

Does Dextel.net offer web design services, logo creation or Web Promotions Services?

Yes, Dextel maintains a professional design staff to fulfill all web site design and logo cre click here for more info.

Top

Can customers log into the site to view the status of an order?

Yes, we can offer your customers the ability to log into your site to view the status of thei orders.

With this customer tracking feature your customers can track packages via major carriers USPS, UPS or FedEx directly from your site. Your customers may also log into your site order confirmation e-mail sent by your store.

This feature significantly reduces call volume and enhances customer support. These fea be added or not if you do not wish to use them.

Top

Do have any further questions, please feel free to contact us.

Updating Your Information

To update your partner information, go to My Account and click on Edit. You can change or add information or preferences in your partner profile.

Managing Products and Images

While we are always here to help as best we can, you are in charge of managing your own prod images. You are responsible for all content you upload. When logged in, you can upload images your image gallery. You can then create products using those images. See the overview on our

Can I get products from my own store at cost?

If you would like to order shirts at cost from your own store, you can set the mark-up to $0.00, pl order, then re-set the mark-up to the desired amount. To do this, go to your store, click "Buy" for like to edit, click the Edit tab above the shirt image. Scroll down to set the pricing, and scroll to th Submit your changes. If you are interested in placing a larger order for an event you can contact bulk@goodstorm.com about buying a bulk order (minimum 144 shirts) to be screenprinted.

No. We only sell products that we make for you. If we don't have the products you want, let us kn know in which directions to grow.

Can my online store look like my website?

You can upload your own banner on your My Account page. New versions of the site are in de
we're looking to make it easier for you to customize more of your storefront.

Do I have a choice between digital and screen-printed apparel?

Yes. We offer digital printing and screen printing options. Products on our website are going to
printed, however, because screen printing requires minimum orders and prepayment. If you w
about a bulk screen order, drop-shipped to one address, contact us at orders@goodstorm.com

Does it cost me anything to sell?

For digital printing, there are no up-front costs — all items are printed on demand, and then pa
shipped to your customers.

How do I get paid?

We cut checks to you every month as long as your store exceeds $100 in earnings. Sometime
to cut checks even if your sales haven't reached $100. Just make sure your account informati
your name and a current address, under My Account.

How do I know how many shirts we're selling?

Simply click on the "My sales" link under the "My Account" section of the site.

How do people find my products?

You can send an e-mail to everyone you know with the link to your GoodStorm store. If you lo
Account, there's a tab to Promote My Store. You can easily select images there to place on yo
link to ours. From time to time, we may feature you on our front page, in our newsletters, or in
People can also shop the site and browse through our shopping links.

I have a cool design, but I'm just an individual. Can I create and sell a shirt?

Yes. Just register, validate your email, and set up your store. It's all explained in our How To p
something else we can do for you, let us know with our feedback form.

I'm a PAC (Political Action Committee), can I sell products through GoodStorm?

Yes, soon! For most PACs we will have the proper agreement form in our checkout process. F
is a little trickier and it might take a little longer to get those stores up and running.

What do you need from me to make a shirt?

You need to sign up for store ownership, and you'll need your image ready. The basic image r
300 dpi preferred, transparency is important, and note that the size of the image you give us w
size that prints on the product. Please read more details on our design page. Then, follow the
our How To page.

What happens to merchandise that doesn't sell? Am I going to get burned?

No. If you choose to use the digital printing option, we don't need to hold any inventory so you
worry about selling a minimum. You do take a small risk with the screen-printing option, by pa
inventory that we hold until it sells.

How can I create Snapshot images?

You can upload a picture of someone wearing your shirt, or a crop of the design, whatever you
upload these snapshots for fun to show up on the product page, or select it as the default and
product thumnail.

How do I add more subproducts

Here is s simple step by step:

1. Make sure you're logged in, or click "Sign in" at the upper right of this screen
2. Go to the product page of the product to which you'd like to add more colors, styles, or
3. Click on "Subproducts," in the tabs just above your product
4. Click on the products you'd like to add, e.g. Union Made shirts, in Men's sizes, in navy
5. Click "Review Options"
6. If the options looks good, hit "Submit." Otherwise, go back and choose new options

Can I put a store on my own Website?

With GoodStorm InLine, you can open a T-shirt StoreFront on your own Website. Setting up is
pasting a line of html code onto your site.
See Setting up your store on your own website.

Labels: worldofwarcraft mywarcraft

Project owners:
ianwatson

This AddOn lets you create a store, displayed in the same format as the vendors throughout Azeroth. Any item in your pack can be added, and you can set any price you like. You can "advertise" the store in a multitude of different ways: to your guild, your party, an individual, or to the Trade channel. To people without the addon, the advertisement appears in human-readable format, like so:

[2. Trade] Mehrzad: <[redacted]> Selling Blade, only 5g44s87c!

To people with the Addon, [redacted] picks up on the <[redacted]> tag, and adds you to their list of stores to browse. Stores can be browsed from anywhere on Azeroth, as long as both players are online.

The buyer can select which items they want, and have those items "reserved." A total price for all items is displayed.

If they're within trading distance, they can purchase their items from you. If they prefer mail-order, [redacted] can automatically send i next time you're at a mailbox.

Good for people who create a lot of items via their professions and want an easy way to make them available. Great for guild banks

Drag and Drop Uploads
Simple interface to upload your product feeds.

Full Feature Descriptions

Static Pages

Every web page is STATIC. This means that every page has its own uniqu URL. is the ONLY store builder on the market that has this

feature. This is a HUGE bonus when it comes to search engine optimizati
Some search engines count product pages that use a URL parameter to
which product is being displayed as ONE page. So, if you have a million
products for sale on your site, it counts as ONE to the search engines. Si
of our product pages are static, the search engines see our sites as havir
MILLION web pages.

Affiliate Integration

We have integrated Linkshare ,Commission Junction and Share-A-Sa
datafeeds into MyStoreMaker. This means that just by adding a merchar
to your store, all of the related items in those feeds will be integrated into
online store. These products will not only earn you additional income but
expand your total site presence on the internet making it more likely to be
included in search engines.

Dropshipper Integration

We have integrated the 2 major internet dropshippers ,Doba and Megago
into MyStoreMaker. We handle all of the product feeds on a daily basis so
is nothing for you to do to start selling dropship products. Our advanced c
panel allows you to control items such as profit margins, handling charges
a real time basis.

Payment Integration

We currently have Paypal integrated into with many more
in the very near future

Data Exports

We have integrated the following exports into Froogle an
Yahoo Stores. In addition you can define any custom export you want wi
advanced export control panel. Also our Froogle export has been automa
once you define the parameters one time, your froogle export will be
automatically uploaded on a nightly basis.

Google Analytics

We give you an interface to input your Google Analytics code one time. A

that, all of your stores pages will be encoded with this feature.

Google Sitemaps
Every site build automatically generates an advanced Google Sitemap th
be placed in your home directory for Google to use for indexing your site(

Google Adsense
Our interface accepts your Google Adsense ID. From that point on, all Go
ads on your site will use YOUR adsense ID and generate revenue directl
your Google Adsense account.

Kanoodle
Our interface accepts your Kanoodle ID. From that point on, all Kanoodle
your site will use YOUR Kanoodle ID and generate revenue directly to yo
Kanoodle account.

Yahoo Publisher Network
Our interface accepts your YPN ID. From that point on, all YPN ads on yo
will use YOUR YPN ID and generate revenue directly to your YPN accou

User Fields
While all other store builders force you to change your data feed to confo
their predefined fields and format, we allow you to upload your existing pr
data with NO modification

META Generator
META tags are the key to the search engines finding your onlie store. Ou
advanced proprietary META generator automatically generates unique ta
each and every page on your site.

Drag and Drop Uploads
We have made uploading your products and images as easy as possible
simple Drag and Drop interface. Simply drag your complete product feed
format to our interface and another with the product images and that's it!!
other storebuilders make you create each and every product through a

cumbersome web interface that could take days to create and even longe
keep updated.

Who We Are

Home > About Us

Web Design, Development and Marketing Professionals

We are experts at using the web and Internet technology to accomplish busines
We specialize in building and optimizing e-commerce sites for better conversion
traffic.

What Makes Us Different

There are dozens of web design firms and independent contractors that will offe
your Yahoo Store, but very few that can bring the depth of experience and profe
that you deserve. As a division of a well respected web design and development
Internet Solutions, whose clients include American Express, Charles Schwab and
Systems, brings a team of world class designers and develop
project.

Our staff has over 10 years of experience in this field on average. And we own a
several Yahoo Stores ourselves. With you get the best of bo
world class team with experience working for some of the top companies in the
deep knowledge and experience working with Yahoo's platform.

SEO Focus

For most small and mid-sized ecommerce businesses, targeted search engine tr
or breaks the company. That's why we design every store we work on with SEO
Our parent company, 4D Internet Solutions has an entire division dedicated to S
enterprise clients. When you work with you get the benefit
expertise. We apply all the same SEO principles, strategies and tactics to the de
Yahoo! Store.
